PANDUAN LOGIN EDUROAM (education roaming)

UNIVERSITAS NEGERI YOGYAKARTA

Eduroam adalah layanan nirkabel (WiFi) yang aman, dalam lingkup global bagi komunitas edukasi dan peneliti. Pemilik akun lembaga pendidikan yang sudah tergabung eduroam dapat terkoneksi dengan jaringan SSID eduroam universitas dimanapun berada (dalam maupun luar negeri).

Untuk wilayah Yogyakarta : UII, UGM, UNY

Koneksi Windows 10

1. Pilih **Network and Connection Setting**. Kemudian pilih icon wifi
2. Selanjutnya pilih SSID **eduroam**

3. Pilih menu **Connect**

4. Isikan **username** dan **password** menggunakan email UNY

5. Pilih menu **Connect** untuk melanjutkan verifikasi **certificate**

6. Tunggu beberapa saat ketika proses menghubungkan jaringan
7. Komputer telah terkoneksi dengan **eduroam**

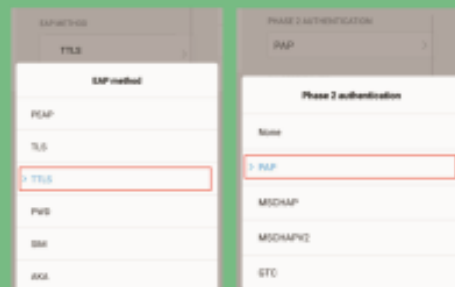

8. Apabila masih diminta login **SSO** silahkan masukkan akun email student UNY anda.

Koneksi Android

1. Koneksikan handphone dengan WiFi
2. Pilih SSID **eduroam**

3. Pilih EAP method : **TTLS**
4. dan Phase 2 authentication : **PAP**

5. **CA CERTIFICATE** : (unspecified)
6. **Identity** : email UNY
7. **Anonymous identity** : email UNY
8. **Password** : password email UNY

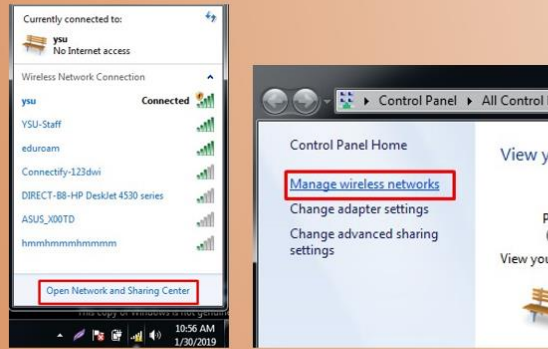

9. Klik **Save / Connect**
10. Apabila masih diminta login **SSO** silahkan login dengan akun email UNY
11. Handphone sudah terkoneksi dengan **eduroam**

3

Klik icon wifi , pilih “Open Network and...” , pilih “Manage wireless Networks”.

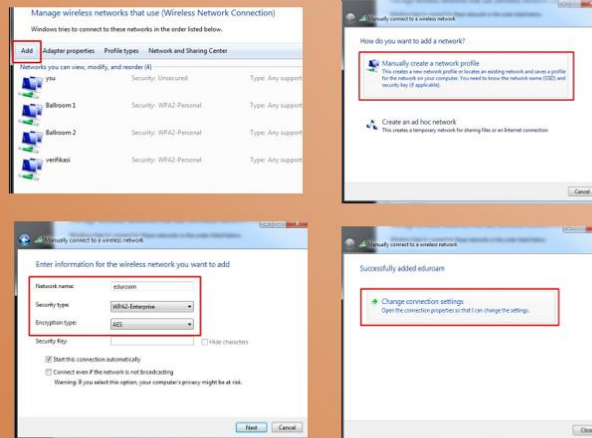

5

Rubah konfigurasi pada tab “Security” klik OK dan Close.

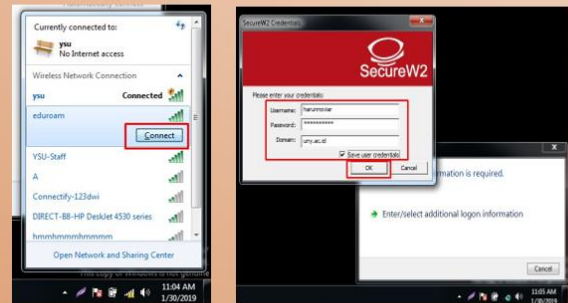

4

Tambahkan koneksi ssid “eduroam ” secara manual.

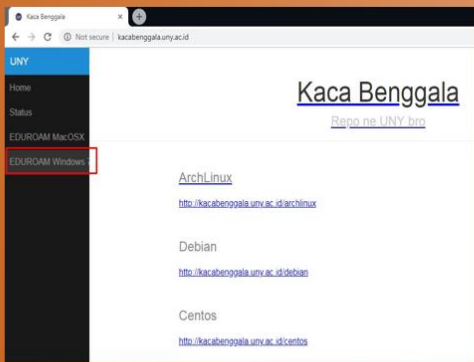

6

Koneksikan ssid “eduroam” kemudian akan muncul jendela “SecureW2”, masukan dengan format **username: namaemailanda** **Password: passwordemailanda** Untuk kolom domain isikan jika untuk staff “uny.ac.id” dan untuk mahasiswa “student.uny.ac.id”.

1

Download file installer bgrkwh70qn7.exe dari alamat <http://kacabengala.uny.ac.id> kemudian klik 2 kali untuk melakukan instalasi.

2

Setelah selesai install, coba terlebih dahulu langsung ke langkah 6. Jika kemudian koneksi gagal, baru lakukan langkah 3 sampai 6.

2. MAC AND IOS

1 Visit the website kacabenggala.uny.ac.id in Safari. The page displays the UNY logo and a list of operating systems: Home, Status, EDUROAM MacOS, EDUROAM Windows, ArchLinux (<http://kacabenggala.uny.ac.id>), Debian (<http://kacabenggala.uny.ac.id>), and Centos.

2 A system alert dialog box appears: "This website is trying to open Settings to show you a configuration profile. Do you want to allow this?" with "Ignore" and "Allow" options. "Allow" is selected.

3 A "Warning" dialog box is shown: "UNSIGNED PROFILE. The profile is not signed." with "Cancel" and "Install" options. "Install" is selected.

4 The "Install Profile" screen shows the profile name "eduroam-universitas-negeri-yo..." and "Signed by Not Signed". It contains a "Wi-Fi Network" and a "More Details" link.

5 A "Warning" dialog box is shown: "UNSIGNED PROFILE. The profile is not signed." with "Install" and "Cancel" options. "Install" is selected.

6 The "Enter Username" screen prompts for the username for the "EDUROAM" Wi-Fi network. The username "dwiagus@uny.ac.id" is entered. Below the input field, it says "Requested by the 'eduroam-universitas-negeri-yogyakarta' profile".

7 The "Enter Password" screen prompts for the password for the "EDUROAM" Wi-Fi network. The password is masked with dots. Below the input field, it says "Requested by the 'eduroam-universitas-negeri-yogyakarta' profile".

8 The "Profile Installed" screen shows the profile name "eduroam-universitas-negeri-yo..." and "Signed by Not Signed". It contains a "Wi-Fi Network" and a "More Details" link.

9 The "Profiles" screen in Settings shows the installed profile "eduroam-universitas-negeri-yog..." and another profile "Zero-IT Activation" by Ruckus wireless.
